# TERMS OF SALE

1. Auction sales ARE NOT approval sales. Read these terms carefully. By submitting bids you agree to the terms set forth below. All coins have been classified by experts and while errors will be gladly corrected NO LOT MAY BE RETURNED WITHOUT WRITTEN PERMISSION. Request to return coins MUST BE MADE WITHIN THREE DAYS OF RECEIPT OF COINS.

2. All bids are to be by LOT as numbered in the catalogue. When identical bids are received, preference is given to earliest bidder.

3. This is a PUBLIC AUCTION. All bids are entered as received and highest bidder will be the buyer. Mail bidders may feel free to submit any bid they wish and each lot will be purchased for such bidders at the next highest bid over room bidders.

4. Bidders must establish credit or have on deposit 25% of TOTAL bids.

5. Lots will be available to room bidders after each session, except large heavy lots or books.

6. Mail bidders will receive their lots promptly after the end of the sale. All ACCOUNTS MUST BE SETTLED PROMPTLY IN U.S. FUNDS, or in other currencies if special arrangements have been made.

7. Lots delivered in New York City are subject to 3% Sales Tax.

8. There will be no charge for executing bids but postage and insurance will be added, and a handling charge for heavy lots and books.

9. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. IN ANY EVENT THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER. We recommend however, if you want the lot, bid close to or over estimate.

## THREE UNUSUAL RARITIES

### RUSSIA

1026 **The magnificent gold and enameled order of the White Eagle:** as given personally by Czar Nicolas II to Prince Doundokoff Izidinoff, an imperial guard hussar and president of the Russian Nobility Association in Koursk.

Order instituted 1705. (in Poland) but included in the Russian Imperial orders after 1831 (incorporation of Poland into Russia). One class only and badge is similar to the St. Andrew having the black double headed eagle with outstretched wings, upon which was an eagle in white enamel, all this superimposed upon a cross with V shaped ends, enamelled red, edged white, resting again upon a star with golden rays. The badge hanging from an imperial red and blue enameld gold crown with a sash of dark blue moire.

3½x2¼ inches. This heavy gold piece of historical jewelry superb and identical to the piece recently sold by a 5th avenue dealer for 1250 dollars, and in the Toumaneff collection it brought $1650.00.
(Photo shown on request) Our estimate for this piece only (1250.00)

### ITALY

1027 **The rare and exquisite order of the Annunziata,** also called "The Order of the Collare", and even called the "Italian Order of the Garter" to compare its comparative rarity.

One of the two specimens issued after 1943 under Umberto II, son of King Victor Emmanuel III and now residing in Portugal.

This is the highest Italian order and the holders were called "Cousins of the King". Called in 1518 by Charles III the "Annunziata". It was rarely awarded but according to Dorling the King was induced to give Goering and von Ribbontrob the order.

The order was established about 1362 by Amadeus VI. 14th count of Savoy. Only one class.

Beautiful silver heavy gilt chain of 33 links, alternatively small and large links with V shaped link on bottom, all links with ornaments and gothic letters, from which hangs the heavy gilt unusually shaped decoration showing the Annunciation of Maria, in heavy open work ornaments with star and dove above.

To this the magnificent star which has an unusual shape and also represents the Annunciation of Maria, silver and gold with deep relief. Last (1956) quotation of this order in heavy gilt was $750.00.
(Photo shown on request) Estimated by us (1000.00)

## GREECE

1028 **Collar and decoration of the Greek Orthodox Order of the Holy Sepulchre,** as instituted by Constantin the Great in 312. Heavy gilt and enamel chain with 21 links, composed of the Greek arms, the Orthodox cross, ornaments and two enameled links, of each one dated 1897. The decoration shows a long cross with enameled medallion in center, Christ the Redeemer, Laurel leaves around. Heavy crown above. The decoration measures 5¼ inches.

This piece resembles the decoration and chain given to Franklin D. Roosevelt and on exhibition in Hyde Park.
(Photo shown on request) Superb rich piece. Valued by us (500.00)

## COLONIAL AMERICAN MAPS

### LANDMARKS IN THE SANDS OF TIME

As a springboard to the three dimensional universe these crude earthly records actually become significant relics of perpetual value and charm.

Genuine maps of the 17th century are real collectors items and an important salvage. Handcolored, beautifully engraved by the renowned Bleau family and other carthographers of the period. these maps are a good investment. The normal deterioration of paper assures you of the scarcity. These maps will be durable as they are mounted in a unique way, they are assembled flat, in sturdy material, decorative and ready for study.

They provide an atmosphere of fixed tranquillity in your library, office or den in this world of terrific changes. They form an annex to your coin collection.

1029 **VIRGINIA.** Hand colored, by "Bleau", about 1645. Historic illustration. "Status Regis Powhatan". Reference to John Smith. 19x15 inches. Extremely fine. Estimated retail value. (112.50)

1030 "Robert de Vaugondy". EARLY COLONIES OF NORTH AMERICA, about 1755. Much interesting detail, 25x19 inches. Retail value. (87.50)

1031 "Robert de Vaugondy". South American Colonies, about 1755. With all early Spanish detail. 25x19 inches. Estimated retail. (82.50)

1032 "Robert de Vaugondy". The West Indies, about 1755. Era of the Galleons, and also of the Pirates! 25x19 inches. Some repairs but perfectly framed in wood. Estimated retail value. (75.00)

## FOREWORD

Mr. Freeman has been collecting coins since 1918 when he was twelve years old.

A year or so later, a family friend living in South Carolina, hearing he had been bitten by the coin bug sent about a pound box of coppers. Included were Canadian Coins and Tokens, and about a dozen U.S. Large Cents. He noticed the difference in the design of these cents and there started an intense interest in "Old Coppers" that has never waned.

Mr Freeman has traded with such numismatists as Tom Elder, Max Mehl, Jim MacAllister, Wm. Rabin, Ira Reid, John Zug, Horace Grant, Perry Fuller, Charlie Green and Miss Ella Wright.

Mr. Freeman says:

"My era comes after the death of the Chapmans, but I recall many pleasant Saturday afternoons spent at 333 So. 16th St. in Philadelphia, the home and office of Mrs. Henry Chapman. There I made a lasting friendship with Miss Ella Wright who had been with Mr. Chapman for many years and who was then conducting the business for Mrs. Chapman quite a few of my Cents and Half Cents, and my first 1864 Small Motto Two Cent piece, came from the Chapman stock".

Mr. Freeman has sponsored and started many coin clubs and new collectors. He will continue in his field of endeavor, "Coppers" and we look forward to the publishing of his work on Two Cent pieces.

It gives me great pleasure to have the privilege of presenting Mr. Freeman's collection to you.

Numismatically yours,

ABNER KREISBERG

## HALF CENTS

1033 **1793. G–3. A Magnificent Example of an R–5 Variety. Dark Brown and among the Finest Known. Exceedingly Rare in such Choice Condition. (Wide Border, Well Centered.) (This should be a Condition Census Half Cent.) Extremely Fine Plus. Should Sell in Excess of (500.00) PLATE**

1034 1793. G–3. Duplicate of above, but showing lots of wear. Still with everything readable. Fair (85.00)

1035 1794. G–1. Brown, porous surface. With slight mint clip on edge beneath 4 of date. R–3 Very fine. Worth (100.00)

1036 **1794. G–5. UNCIRCULATED. This Ranks Well at the Top. Is Probably FINEST KNOWN in Collector's Hands. I have not seen the reported M S 60 Specimen in the Garrett Collection, now at John Hopkins, Which is Credited as being the Only One Known in Such Condition. This Specimen May Equal it. (Note: W. Breen saw this Coin within the past year and classified is as Unc.) (Note: 2. On this example, the obverse die has been damaged through contact with reverse die so that heavy incustations of wreath are seen in front, top of and behind head, and again between date and bust. A slight crack extends from top of E and runs through the tops of RTY, and extends about 1mm into field. This die state not mentioned by Gilbert.) This UNCIRCULATED gem should easily set a new record. PLATE**

1037 **1795. G–1. Certainly one of finest known in collector's hands today. May be finest. Lettered edge with pole, struck in thick "Pecky" planchet from proof dies. A similar coin was sold in the Mills collection in April of 1904, and described as a proof by S. H. and Henry Chapman, who were not prone to exaggerate on condition. So there were proofs coined in 1795. There is no way to evaluate the true worth of this distinct rarity. I do say that large cents of equal grade with mintage in excess of this are being bought at prices exceeding $1,000.00. PLATE**

1038 1795. G–4. Plain edge, punctuated date, with pole. R–4. Reverse About good; Obverse Good. Worth (35.00)

1039 1795. G–5. Plain edge without pole. (Struck over Talbot, Album & Lee Cent of 1794. The symbol "&" is seen to left of Cap and "C" of Commerce, at top of Cap and "O" above LI of Liberty.) This coin being struck on a thin planchet is flat struck as usual, but shows no appreciable wear and has been considered as among finest known. Was missing from the Ryder collection. Very rare in this Almost Uncirculated condition. **PLATE**

1040 1797. G–2. This coin is now R–6. There is a file or test mark at left edge and on the reverse a portion of obverse denticles appear in the upper right portion. (Mint error.) Double struck reverse. This variety is hard to come by in any condition. Reverse About good; Obverse, Good. **Rare.** Worth upwards of (100.00)

1041 1797. G–4. Plain edge with pole. 1 over 1 in date struck from obverse die in late stage and showing most of the imperfections mentioned by Gilbert. Good. Scarce (50.00)

1042 1797. G–4. A duplicate of last, and bolder, with pitting on reverse: obverse nice, About Fine plus (60.00)

1043 **1800. M. S. 60. Only variety of 1800 from Breen. Scarce. PLATE**

1044 1800. A duplicate of last, showing even wear. Fine Plus (35.00)

1045 1802. G–1. Over 1800 as all, a very desirable specimen of this distinct rarity. Liberty and date bold. Reverse strong, except E of Cent, which is as found on most 1802 Half Cents. Fine. **Rare. PLATE**

1046 1803. G–2. Dark, pourous surface. Obverse with Liberty and date bold, and reverse with bold legend and weak Half Cent. About Fine (25.00)

1047 1803. G–3. This coin shows even wear, but still very acceptable, and better than last. Fine.

1048 1804. G–1. Plain 4 with stems to wreath. An R–5 variety, heavily oxidized. Reverse is double struck. Fine.

1049 **1804. G–2. Mint state–Plain 4, without stems. Beautiful iridescence with traces of red. This gem should bring exceptionally high bids. PLATE**

1050 1804. G–2. Struck from worn dies and flat struck. Shows very little wear. Very Fine to Extremely Fine.

1051 1804. G–7. Spiked chin with protruding tongue. Lots of detail remains, and is brown in color. Several lines on obverse; reverse Very Fine. A desirable specimen. Worth (50.00)

1052 1805. G–1. Small 5, stemless wreath. Shows 5 recut at top. A rather pleasing brown. Not in Dupont or Clarke. Fine to Very Fine. Scarce.

1053 **1806. G–1. Small 6, without stems. Flat struck. 6 shows recutting, but rim break on reverse is in different position than stated by Gilbert, this being broken over space between last A of America and right ribbon end. A rather common variety in rare condition. (Could this be a new variety?) Uncirculated. Should bring a runaway price. PLATE**

1054 1806. G–3. Large 6. Dark, and showing lots of wear. Date is unusually bold. Fair.

1055 1807. G–1. Shows considerable, but even wear, and with all lettering and date bold. Obverse, Very Good; Reverse, Fine. Worth (25.00)

1056 1808. G–1. Small 8 over 7. This coin shows little wear, but is heavily oxidized. About Very Fine. Rare variety. Should bring over (30.00)

1057 1808. G–1. Duplicate of last, showing more wear, but still acceptable. About Fine. Worth (25.00)

1058 1808. G–2. Large 8. Struck from dies in late state, with letters of Liberty showing weakness. This would indicate G–3 must have come before 2. Very Fine. Worth over (15.00)

1059 1808. G–2. Inverted reverse. A duplicate of last, but with upset reverse, and struck from earlier state of dies. Very Good plus.

1060 1809. G–1. Zero with inner circle. A desirable example of an R–3 type coin. Fine and scarce.

1061 1809. G–4. A beautiful Half Cent, with glossy brown surface. Bought as About Uncirculated, but is probably Extremely Fine. Worth in excess of (25.00)

1062 **1810. G–1. Another beautiful coin.... This is About Uncirculated, with die break showing on cheek. Seldom comes better. As good as Dupont specimen. Worth in excess of (100.00) PLATE**

1063 **1811. G–1. Dark Brown. Full Liberty and strong date struck slightly off center, with stars on right weaker than those on left. Reverse; everything clearly readable. Rare date. .About Fine. Worth over (125.00) PLATE**

1064 1811. G–1. Duplicate of last, and showing more wear and having the appearance of having been sweated. Liberty clear. Very Good. Scarce (75.00)

1065 1811. G–2. Much rarer variety than last. (Strong date.) Heavily oxidized and pitted. Stars on left welded to rim by die break, as mentioned by Gilbert, and, as such, considered quite rare by him. Liberty clear. Scarce. Good. Worth (75.00)

## LARGE CENTS

1105 **1793. Chain America, Sheldon 3 C, R–3, featuring the Leaning R. medium brown, with beautiful surface. Liberty and date bold. Incustations of chain as mentioned by Sheldon, are clearly shown in front of face. There are two minor obverse rim bruises and one reverse that detract but very little from this lovely coin. The reverse is well centered with chain and lettering unusually bold. There is a rim defect above ICA of America, not mentioned by Sheldon. Obverse is Very Fine 30. Reverse is 35. This very desirable specimen should bring over (350.00) PLATE**

1106 **1793. S–6. 7–F. The Sprung Die Variety. Dark Brown, Liberty Bold, bottoms of figures in date weak, but readable: Few edge nicks. Very Scarce Variety. About Fine 10. Worth (100.00)**

1107 **1793. Sheldon 8, R–3, Crosby 9 G. Wreath type. A beautiful coin, showing wear only on highest points, almost entirely free of usual surface nicks, and no sign of corrosion, so common to this variety. There is one slight rim bruise over the final S of states and other slight unnoticeable rim dents. This variety is much scarcer than Sheldon 9 and is seldom offered in such condition. Die crack partly across reverse. Very Fine Plus – 35 (From a well known St. Louis collection.) Should bring over (350.00) PLATE**

1108 **1794. Sheldon 28, Ornate variety: So called by Maris. (not in T. J. Clarke) This is a condition census coin, but has had slight mishandling of the right portion of obverse, in an attempt to improve rim dent. The rest of the coin is Magnificent, the reverse being mint state 60. This specimen is worthy of a handsome bid. PLATE**

1109 1794. S–41. Hayes 19. This rarity 4 Coin in Fair condition (20.00)

1110 1794. Sheldon 43, R–2. The Short Bust variety, also named by Maris. A lovely light brown, small rim dent above the **R** of **Liberty,** only highest points show slight flatness. A scarce variety, difficult to obtain in excellent condition. Very Fine to Extremely Fine 38. Should bring upwards of (100.00)

1111 **1794. Sheldon 44 (H–33) R–2. Short Bust variety, brown steel in color, obverse well centered and boldly struck, full cheek, slight wear showing on high spots in locks. A rim dent to right of Y. Reverse bold with minute rim defects. All in all a desirable example of this variety which is difficult to obtain in first rate condition. A Henry Chapman specimen. Very Fine 30 to 35. Worth over (100.00)**

1112 1794. Sheldon 46 (D 48) R–2. Dark oxidized surface but maintaining mostly all detail. Only the rough surface keeps this from being of top quality. Fine plus 20. Worth upwards of (60.00)

1113 1794. Sheldon 63, R–3. Fallen 4 variety, dark brown steel example of this scarce and popular variety. All lettering and detail bold with wear showing on high spots. A Very Fine 30. Worth over (75.00)

1114 1794 and 1802. Very Good. The pair (27.50)

1115 **1795. Sheldon 75 (D 67) R–3. Lettered edge: Double leaf on right. Dark brown, a very desirable specimen of this much sought type coin. Very Fine 30. Records of over 110.00 PLATE**

1116 1795. Sheldon 76b, (D 66) R–1. Plain edge, "one cent" high in wreath. Another type coin hard to obtain. Better than fine. Worth (50.00)

1117 **1795. Sheldon 78, (D 70) R–1. Plain edge, lustrous reddish brown, struck on a flakey planchet. The appearance of obverse pitting in the field is actually the result of a "Pecky" planchet before minting. Bought as Uncirculated, but it is not quite that. Sheldon mentions this variety often seen with a brick red color, and this one has this tendency. About Uncirculated 50. Rare in this condition. Worth over (100.00) PLATE**

1118 1795. S–78. A duplicate of last with Very Fine obverse and a Fine reverse, save for an attempt to perforate at N of Cent, leaving shallow drill mark.

1119 **1796. S–82, R–5. (not in Pearl – Dupont or Clarke) Liberty Cap. dark steel–brown, showing considerable but even wear with fine surface. Liberty and date bold; everything clearly readable on reverse. There is a slight planchet clip (done at mint) lower right. Sheldon lists this variety as R–5. Condition census 65–25. Difficult to obtain in any condition. Purchased in the early 1930's from a Richmond, Virginia collection. This cataloguer considers this specimen among the best obtainable. Almost Very Fine 15–20. Very Desirable (150.00) PLATE**

1120 **1796. S–88. The Club Pole, Balanced date variety. Another distinct rarity. R–6 condition Census 40–20. Purchased in 1937 from Miss Ella Wright, manager of Henry Chapman Estate. It was then considered as one of the finest known specimens, as it remains to–day. (Not in Clarke or Pearl sales.) Dupont's buffed and re–colored example of this rarity brought $180.00, in 1954. This dark brown evenly worn 20 plus specimen with beautiful surface should bring a runaway price. PLATE**

1121 1796. S–91, R–3. The wide date, double leaf lower right. This variety, though not as rare as two preceding varieties, is uncommonly hard to find above Fine. Clarke's specimen listed as Fine–15; and Dupont's as About Fine. This example Very Fine with a rim bruise at top of obverse and several unnoticeable "pock marks" that were most probably in the original planchet. Should realize a tidy sum. **PLATE**

1122 1796. S–104, R–3. Liberty (not in Clarke) and listed in Dupont as Very Good. This specimen is a dark, somewhat granular example of this popular type coin. Obverse, Fine; Reverse, Very Fine 20. Should bring over (75.00)

1123 **1797. S–135, R–4. From the famous "Nichols" find and acquired in 1937 at which time it was considered by Jim Mac Allister as being in mint state with semi-proof surface. In 1944 I sold the Pearl specimen for 300.00. The Dupont specimen brought 255.00 in 1954. This Uncirculated gem, MS 60 worth over (300.00) PLATE**

1124 1797. S–138 Rarity 3. Reverse die badly damaged. Obverse Very Good 10. Sharp date. Reverse, Good 8. Worth (20.00)

1125 1797. S–140, R–3. Struck from damaged dies. Swellings occur on the obverse and final 7 is weak, as usual. OF on reverse is weak, but not obliterated, as is often the case. This is an interesting example of a weakened die striking. Obverse, Fine 15, Reverse 25. Worth (65.00)

1126 **1798. S–146. This variety was unknown to Doughty and is listed as R–6 with condition census 50–25 by Sheldon. This variety was not in Ryder, Pearl, Dupont, Clarke or New Netherlands. When there are fewer than 30 specimens known to exist, this Very Good 10 example should bring a sizeable figure and should lead to spirited bidding. PLATE**

1127 1798. S–151. 1798 over 1797. Struck off center with no top border and a wide border below date. Almost enough off center to interest mint error collectors. An R–3 Good 8 coin and always in demand as a type (30.00)

1128 1798. S–152. 1798 over 1797. Wide spacing in date R–2. Good 8. Worth (17.50)

1129 1798. S–155. Reverse of 1796. Another popular type coin and in constant demand. This specimen has bold date and liberty, but the center portion decidedly weak, which indicates that somewhere toward the end of its use the obverse die became warped or damaged. This Fine 15 plus, should bring over (50.00)

1130 **1798. S–159. Paralled cracks behind head. An R–4 or 5 coin with condition census 65–30. This specimen has a strong Very Fine 30 obverse, approaching extremely Fine; while the reverse, though showing slight wear, has some pitting, caused by removal of corrosion, probably done years ago. There are no signs of recent cleaning. Were it not for this pitting, this could easily be a census coin. Not in Clarke or Pearl, and much sought after, Rare (250.00) PLATE**

1131 1798. S–161. One of the more common varieties. Was cleaned to remove corrosion and is assuming a fairly natural color. Lettering and date clear. A suitable F–15 date coin. Worth (17.50)

1132 1798. S–167, R–2. Heavily cracked, both obverse and reverse. Appealing to the die break collector. Above average for the variety collector. Fine 20. Worth (35.00)

1133 1798. S–172, R–2. Pleasing brown color and an early strike before dies became badly cracked. Surface has a minimum of nicks, etc. There are two light rim bruises. (Not in Clarke.) A very desirable Very Fine 25 coin. Worth (40.00)

1134 1798. S–172. Another R–2 variety with dark, rather rough surface, yet everything easily readable. Very Good 12. Should bring (25.00)

1135 1798. S–187, R–1. Dark brown with considerable detail on both obverse and reverse. A nice F–20 coin (30.00)

1136 1798. Very Fine to Extremely Fine (20.00)

1137 **1799. S–189, R–3. PERFECT DATE. Date is bold with knobs of nines clearly visible without aid of glass. Liberty is not as bold, which is always the case of this variety, when date is strong. The die defect on the reverse, a slight bulge between E of one and T of cent is clearly visible, as mentioned by Doughty and again by Sheldon. This bulge is the "Hallmark" which guarantees the genuiness of this Rare Coin. Was purchased in the "Tidewater" section of Virginia in 1940. Mr. George Clapp, who examined this coin, considered the boldness of the date would increase the overall grading by several notches. Obverse Very Good 10–12. Reverse About Fine 15 with united and bottom of fraction weak. Definitely should bring over (350.00) PLATE**

1138 1800. S–203, R–2. Die cut before nose. Light brown, showing even wear and exceptionally well centered. Though this coin is considered R–2, it has been elusive and hard to come by in recent years. Dupont's specimen was rather badly damaged and was not in Clarke collection. This very desirable Fine plus 25, should exceed (50.00) **PLATE**

1139 **1800. S–211, R–3. Struck on large planchet, beautiful dark glossy brown. Acquired in the late 1930's, and considered by Jim Mac Allister as the second Finest he had ever seen, the only better one being the Beckwith Coin, which sold at auction in 1923. This specimen must be seen to be appreciated. It would grace the cabinet of the most particular Cent collector. This choice specimen has the appearance of slight wear on high spots, but was probably caused by the condition of the die. The bidding on this specimen should be spirited and should exceed (350.00) PLATE**

1140 **1800. S–212. Dark brown with even wear, with much detail on both obverse and reverse. The obverse die has begun to weaken at rim above ERTY and through the tops of these letters. This is a Fine Example of an 1800 cent as the copper used that year was soft. Not in Clarke. Very Fine 30–35. Should bring over (200.00) PLATE**

1141 1801. S–214, R–6. About a dozen examples known to Dr. Sheldon. Fine 15. Worth about (87.50)

1142 **1801. S–216. Mint state, one of the finest known and probably the best collectable of this variety. This Magnificent example has all of the Tops of LIBERTY intact, though they are in contact with the rim, almost unique in this respect. Purchased from the late John Zug. A condition census coin. Uncirculated 60. Should bring over (300.00) PLATE**

1143 1801. S–219. **Three Errors Reverse.** Dark brown slightly pourous surface, sought after as a type coin. Everything clearly readable and the three errors of the reverse show clearly. Very Good 10. Worth (50.00)

1144 1801. S–220. **Fraction 1/000** Dark brown, another scarce coin for the type collector and an R–4 variety, which is extremely rare in first rate condition. Dr. Sheldon classes this as the rarest of the error reverses and knows of none in full mint state. Very close to condition census. Not in Clarke. Obverse, About Fine 20. Reverse About 30. Scarce. Should bring over (75.00)

1145 1801. S–221. **The Corrected Fraction.** Medium brown, well centered with even surface. This is an R–3 type coin and difficult to obtain in top condition. This example's only noticeable defect is a slight line around the base of the legend. Will fit nicely into most Cent collections. Fine plus 20. Worth over (75.00)

1146 1802. S–227. Natural brown, well centered and showing normal even wear, incustations seen beneath chin. R–2 and fairly common in lower grades, but elusive in Very Fine or better. Very Fine 30. The bidding on this example should go over (65.00)

1147 **1802. S–229. A CONDITION CENSUS COIN. An R–5 in Superb condition for this rarity. This specimen is an early strike before the arc crack appeared. This may be the finest known of this die state, and is certainly one of the best known. There is a slight planchet defect in field near the right border, which was in the planchet before minting. The color is natural olive brown and there is almost unperceptible wear on either obverse or reverse, and only two or three insignificant rim bruises separate this from the gem class. Not in Clarke and superior to Dupont. About Uncirculated 50 plus. Worth (225.00)**

1148 1802. S–231. Stemless wreath, in demand as a type coin and seldom seen as fine, medium brown with even wear and lovely surface. Die imperfections mentioned by Sheldon are present. Don't under–evaluate this variety. Extremely Fine 40. Should bring over (60.00)

1149 1802. S–239. Prominent crack before face. Almost impossible to obtain in choice condition. Sheldon's condition census 70–35. This example certainly puts it among the best known. Reddish brown in color with one or two handling marks in the obverse field. If you need this variety, it will be a long time before you will find another as nice. R–3. Rim looks like electro, but has ring of genuine coin. Very Fine (35.00)

1150 1802. S–241. Stemless wreath with double fraction bar. Dark, rather pourous surface, but still a desirable and popular type coin. Fine 20 (20.00)

1151 **1803. S–243. STEMLESS WREATH WITH DOUBLE FRACTION BAR. This obverse is coupled with reverse L of 1802, and sharper, indicating this 1803 was minted before cents of 1802 with this reverse. This variety in strong demand as a type coin and considerably harder to obtain than the stemless wreaths of 1802. This example is listed as one of the best known, with obverse die in intermediate state with break in rim at right of Y, prominent but not extending over TY. On the reverse the double fraction bar and S below S can be easily seen without aid of glass. Superior to Dupont's; Pearl's good only; not in New Netherland's. Very Fine 35. Worth (125.00)**

1152 **1803. S–247. THE MUMPS OBVERSE. An R–5 coin in Fine condition. Dark brown with even wear and balanced centering way above average for this variety. Fine 20. Scarce Variety (100.00)**

1153 1803. S–253. Close date. Dark brown with almost full detail, struck slightly off center, unusually free of gouges, nicks. An R–2 Coin. Not in Clarke. Very Fine 35. Worth (47.50)

1154 1803. S–254. Wide date, medium brown, with even surface. There is a scratch in lower hair and shoulder. However, it detracts little from this coin, which is otherwise a strong Very Fine 30. Not in New Netherlands. (45.00)

1155 1803. S–256. A very scarce R–4 coin. Missing in many Cent collections. Good – Very Good 9 (35.00)

1156 1803. S–258. Close date with Arc Die Crack in left field. A beautiful cent with lustrous surface. Weak struck, as usual. Slight nick in hair above forehead, and a file mark on reverse from wreath through T of **United** to border. Very Fine plus 40. (65.00)

1157 1803. S–261. Wide date Arc Die Crack between 8 and 0. This example of an R–3 variety is far superior to most offered in recent years, having a medium brown natural color with detail remaining on both obverse and reverse. Hard to acquire in such condition. Not in Clarke. A near census coin. Very Fine 35 (50.00)

1158 1803. S–265. Large date, large fraction. An R–4 cent. Scarce in any condition. Many coins of 1803 are mistaken to be large 3s, when in reality they are not. The large 3s have an abnormally wide lower curl to figure 3. Cost 40.00 in the early 1940's. The obverse of this coin is noticeably scratched and the lettering of reverse is faint at top. Very Good 15 (85.00)

1159 **1804. S–266. OBVERSE AND REVERSE DIE BREAKS. A most desirable example of this rarity. The hair and raised portions of obverse still maintain considerable detail. Date and Liberty bold and field surface unusually smooth. The left side of the reverse is much bolder than on most examples of this variety. Should cause spirited bidding. Fine – Very Fine 30. Worth over (300.00) PLATE**

1160 **1804. S–266. A duplicate of above. Not quite as nice as last, but still way above usual offerings of this variety. About Fine 20 (225.00) PLATE**

1161 **1804. S–266. A third 1804 with date and Liberty clear. Reverse has faint area at left. Good plus 12. Suitable for the collector who cannot afford a 200.00 cent.**

1162 1804. Restrike, Uncirculated and in the original box as housed in the famous Dr. French collection of Large Cents. Reported to have been minted in 1860 from old and rusty dies, the obverse being an altered 1803 to 1804 and muled with a reverse of 1818. Although it is not a regular issue cent, it is much sought after and the price has been steadily advancing

1163 1805. S–267. Blunt 1, medium brown with even wear throughout and nice surface. This date is scarcer than given credit for and is accordingly underpriced. Fine obverse 25; Reverse, Very Fine 30.

1164 1805. S–269. Pointed 1 except for color which is brown–steel with a slight iridescence and showing a little less wear. Not in Clarke. Very Fine 25. Worth (75.00)

1165 **1806. S–270. This coin has a stratification of color, the upper portion being olive and the lower portion having a dark streak across lowest curls and bust. The overall appearance of the coin is desirable. Wear shows only on highest points. The cents of 1806 are scarce as a date. Dr. Doughty in has work on Large Cents published in 1883 considered specimens of this date in top grades to be "Rarest of the Rare", certainly since 1883 these coins in better than Fine condition have not become more plentiful. This example in extremely fine surely deserves a berth in a superior cent collection. Extremely Fine 45 plus. Worth over (150.00) PLATE**

1166 1806. S–270. Duplicate with very bold date and liberty and considerable detail remaining throughout. Dark oxidized surface as so often found on the cents of 1806 and 1809. Fine plus 25. Worth (75.00)

1175 1808. S–278. Struck slightly off center, as usual. R–3. Medium brown in color and the scarcest of the 1808 cents. In very fine condition, and as such should realize a good price. Very Fine 30. Worth over (75.00)

1176 1808. S–279. Struck from injured dies, which give the appearance of being worn, but is flat struck. A good deal of mint luster can be seen about date and stars and behind letters of reverse. Can easily be classified as among the finest known. Condition census 60–50. About Uncirculated 50. Sells at more than (75.00) **PLATE**

1177 **1809. S–280. Dark brown, all stars sharp. Date bold. This coin was buffed years ago, presumably to remove light corrosion, now has a lovely surface and color. Must be seen to be appreciated. About Uncirculated 40 plus. (175.00) PLATE**

There are a few unnoticed handling marks in front of face and one slight nick in field above head between 6th and 7th stars, and another between O of one and C of cent. This beautiful cent and much nicer than indicated. Extremely Fine. Rare. Should bring a runaway price. PLATE**

1230 **1828. N–5. This gem was purchased along with the 1827 N–4 from a Washington, D. C. collection. The coloring is indescribably beautiful. Since its purchase, some ten years ago, a carbon spot appeared on the reverse, which has been partially removed. This has always been classed as the pinnacle of natural brown color and belongs in a cabinet among the finest of large cents. Don't miss this chance. It is superb. Worthy of a bid over (100.00) PLATE**

1266 **1839. N–1. So called 1839 over 1836. Considered rare and missing in many cent collections. This is about the average found as to condition. Very Good. Worthy of a bid of over (100.00)**

1267 1839. N–2. Head of 1838. Not choice, but an acceptable dark brown example of this type coin. Very Fine.

1268 1839. N–7. Booby Head. This coin has the sharpness of an Extremely Fine coin, but there is a slight rim bruise on lower right, and handling marks between 5th star and border. There is a crimson stain in center of reverse, and handling marks around **United.** Very Fine. Scarce variety worth over (50.00)

1269 **1839. N–7. Booby head. Uncirculated. Almost full mint red. The obverse is somewhat weakly struck from late state of die. This specimen should bring a top price as it is very scarce and difficult to obtain in choice red condition.**

1270 **1839. N–8. Head of 1840. An Extremely Fine example of this variety with pleasing color and surface. There is a minute nick near the 7th star. A very nice specimen. Should bring over (100.00)**

1271 1839. N–9. Silly Head. Were it not for old corrosion scars, this would be Extremely Fine, as very little wear is seen. Must be seen to be appreciated. Worthy of a bid of (50.00)

1272 1839. N–10. Booby Head. A popular coin. Obv. would be Extremely Fine, were it not for handling marks between 5th star and border, and a slight rim bruise at 13th star. Reverse is as multicolored as a "calico cat" from dark brown to crimson to orange. Really unusual. Should realize over (50.00)

1273 1840. N–4. Small date. Red brown and Extremely Fine

1274 1840. N–6. Large date, brown and Fine; 1841 N–2 About average Very Fine the pair.

1285 1843. N–13. Obverse of 1842. Reverse of 1844. Mint condition, scarce variety. It isn't often one can get excited over a cent of the 1840's but this coin is superb in every respect. Listed as one of the **Finest Known** and it must be, because in my estimation there is no way to improve on it. A matched set of Large Cents equal to this one would be worth a King's Ransom. Has been in Mr. Freeman's collection since 1935, bought in Philadelphia. Should break all records for this scarce type coin.

1286 1844. N–2. 44 over 81. Variety sought after as a type coin and getting harder to come up with than in the past. This is a desirable example. Fine to Very Fine (20.00)

1290 **1846. Tall date. Not in Newcomb. Apparently new variety. Very similar to N–13, but there is no line crossing center of figure 1. A beautiful example of the tall date which is much rarer than indicated and almost unobtainable in mint condition. This coin is near that condition with traces of wear only on highest points and a few minor nicks in field. Should bring a record price.**

1291 1846. N–15. Small date. A scarce R–2 variety, in beautiful toned condition. Uncirculated (20.00)

## FOREWORD TO TWO CENT PIECES

The June, July and August 1954, and June, July and August 1957 issues of the "Numismatist" carried a series of articles on the U. S. Two Cent pieces from 1864 to 1873, by S. W. Freeman.

A total of 91 obverse and 88 reverse dies were described and represented all varieties then known.

In the near future Mr. Freeman will publish in bound form, this work along with a table of rarity and values for each listed variety.

The fourteen coins listed below constitute the fourteen major varieties of U. S. Two Cent pieces. They are attributed to Mr. Freeman's work, and appear for the first time in an auction catalogue. R–5 is the rarest of these and "P" after the numeral indicates Proof. Basel value is condition I, or lowest identifiable condition, and 70 is the topmost.

An example for arriving at a suggested value is as follows: An unblemished proof 1873 R–5, basal value $2.50 Cond. 70, would be 70 X $2.50 = $175.00. The price of $175.00 for a perfect proof coin 84 years old with an estimated mintage of less than 1000 pieces is not unreasonable. On the other hand this same coin in basal state priced at $2.50, if it could be found, would be well worth that amount as a space filler.

## TWO GREAT GOLD RARITIES OF IMPERIAL RUSSIA

Certain countries and their coinage types have always provided a tremendous appeal not only to specialists but to collectors of world-wide tastes. Particularly in point is pre-Revolutionary Russia which issued the desirable and eagerly sought platinum pieces plus the infrequent, severly limited large gold denominational coins of 1876, 1896, 1902 and 1908.

Everpresent and obtainable are the minor gold values of 5, 7½, 10, and 15 Rubles but seldom appear the two items now offered. Reference numbers have been dispensed with as the coins speak for themselves.

1967 **NICHOLAS II.** 1894–1917. 2½ Imperials (25 Rubles) 1896. Head l., Split legend reads: "By Grace of God, Nicholas II, Emperor and Autocrat of All The Russians". rev: Crowned double eagle within circular legend containing value and date.
But 300 specimens struck as mementoes in the coronation year. Impaired proof. Some scratches in field and diebreak dent on edge. CW. 2, Y. 66. (900.00)

## A YET RARER COIN

1968 37½ Rubles (100 Francs) 1902. Similar types as preceding. Brill. UNC. and excessively RARE.

S. I. Chizhov, in his work "Description of Russian Coins and Varieties in the Past Two Centuries", Moscow 1904, states "These coins were not struck for circulation. In all, but 225 specimens were minted of which 200 pieces supplied to His Imperial Majesty for presentation to high dignitaries. The remaining 25 specimens were turned over to H. I. H. the Grand Duke George Mikhailovich. Inscriptional value of 100 Francs on the coin was contained for monetary acceptance in the French Republic and the Principality of Monaco.

One of the few extant specimens was priced at $880 within the past year. PROOF. Superb. Hairlines. CW. 1., Y. 67. (1000.00)

## SAARLAND

### PLASTIC FRAME OF 60 DUCATS

1969 **SAAR** 10, 20 and 30 ducats in heavy blue frame (6 ounces of pure gold!) The Saar is the famous industrial region which was from 1919–1935 and again from 1945–1957 under French control. In 1957 it was incorporated into the West German Republic.

The 10 ducat was one of the most beautiful engraved diework and only 1000 pieces were struck. Of the 20 and 30, very limited quantities have been made. Hardly any of these heavy pieces are in the USA because the importation is subject to high duties. (60%).

Each ducat has 1 ounce of pure 24 karat gold. The 20 ducat has the same reverse, the German Eagle with Saar arms in cnter. The reverse has Roman numeral ten for 10 ducats and the arms of the German states. On the 20, the same but twice as thick and Roman numeral twenty on reverse, on the 30, still thicker and Roman numeral thirty on reverse. Brill. Proof.

Issue price in Germany $400.00 for the 3 pcs. This would cost with import tax $640.00 and no 20 or 30 ducats easily obtainable in Germany.

The set is the property of a Swiss citizen from Basle.
A beautiful item of unusual appeal. The frame is 8x6″. ——

1969A **SAAR** (SAARLAND) 1957. Official 10 ducat gold coin on the return of the Saar, (rich coal area between France and Germany) to Germany. Eleven shields of the German "Bundeslaender" rev: Eagle with Saar-shield. Proof. Very beautiful. (105.00)

It is quite possible that most of this gold has been melted in his desert kingdom where gold is at a high premium. The few pieces we have seen have reached prices up to $250. ## PLATINUM COINS

Russia is probably the sole country to issue platinum on a regular basis.

**An Important Development:**

## FIRST PAN AMERICAN SILVER DOLLAR

The close association of the silver dollar of the U.S.A. (at the time of authorization) with its Spanish American predecessor, invites exploration for the earliest piece of that denomination, extant of record; struck in the New World.

The research has continued a long time and subject to further discoveries, there are now known of record, only **seven or eight authentic specimens,** with pedigrees of note; no disagreement exists between well known numismatists past or present; **four of these coins are here to be auctioned:**

From the assembled evidence the first 8 reales (dollar size) silver was made at the Mexico City Mint about 1572, in the reign **of Philip II** and until the microscopic analysis is further developed no coin without the title of "Philippvs II" **clearly showing,** can so be attributed.

Experience indicating many items of **Philip III** are represented erroneously.

Reference is male to the "NUMISMATIC HISTORY OF MEXICO" (1938) by Dr. A. F. Pradeau; page 36, third paragraph; also plate II, position #1. This identical coin was examined at the Museum of the American Numismatic Society of New York.

## SOUTH SEA ISLANDS

Genuine early native money of the South Sea Island has become very rare. Before the war many museum expeditions searched the many islands and brought back most of the really obtainable pieces. During the war our soldiers and allies who were stationed on the islands collected much native material for souvenirs. Today it is impossible to locate any real numismatic material. Good specimens will increase rapidly in value and become harder to obtain.

This is a very old genuine specimen with small shells and dog teeth forming a becket (loop at one end knot at other to hook around neck). When the German traders found how much the native valued dog teeth they sent to Malaya, Turkey and China and bought all they could find. Not satisfied with this they eventually began to have dog teeth manufactured in Germany from porcelain. Just as our American Colonial business men found out when they manufactured wampum by machine, the value soon depreciated and the value of dog teeth fell. This is a very old and really valuable specimen. See Quiggins for details. V. Rare See Quiggins Pg 127 (New Britain). (50.00)

## U. S. PAPER MONEY

### THE DEMAND NOTES OF 1861

Friedberg says, "The term "Greenback" for United States Paper Money originated with the issue of the Demand Notes of 1861. These notes are the first and earliest issue of United States currency as we know it. They were issued in denominations of 5, 10, 20 Dollars only, and were authorized by the Congressional Acts of July 17 and August 5, 1861. All notes bear the first date, "Act of July 17, 1861" and also the additional date of August 10, 1861, which is probably the day the notes were first issued to the public.

Demand Notes are unique in United States Currency, in that they alone bear neither the Treasury Seal nor the actual names of the Treasurer and Register of the Treasury. They also have the serial numbers imprinted only once, whereas all succeeding notes have it twice, at opposite ends of the note."

### 5 DOLLAR NOTES

2335 **Fr. #I. New York, New, except for a center crease and a light fold at either end. So rare in better than fine condition that the Friedberg book does not list it above Fine. Best I have seen. I did see a very fine one at the Philadelphia Convention in August at 400.00. I honestly don't know how much this nicer one is worth.**

2336 **Fr. #1. New York. A duplicate in fine condition. Since the Friedberg book came out almost three years ago, this note has increased in value. It should be worth (250.00)**

2337 **Fr. #3. Boston, Very Good. Has some breaks, mostly at the edges. Better than most I have seen (160.00)**

### 10 DOLLAR NOTES

2338 **Fr. #6. New York, Very Good. Only a very few of the breaks at edges that usually come on this rarity (300.00)**

2339 **Fr. #7. Philadelphia. Fine with nice color. Rare (375.00)**

2340 **Fr. #8. Boston, Extra fine and choice. Best I have seen (1,000.00)**

### 50 DOLLAR NOTES

2384 **Fr. #150. 1863. Extremely Rare. More than half of the notes in existence today are said to be counterfeit. This was the most counterfeited note of the early years. Of far greater rarity than generally known. This superb about uncirculated note has only one very faint fold showing under very close scrutiny. This Philpott note had three folds showing and sold for 750.00 last year. Since Mr. Philpott spent many years trying to obtain the finest note possible, this is probably the finest known note. I think this note would be a bargain at (1500.00)**

2385 **Fr. #151. 1869. The rarest 50 Dollar Note. According to Mr. Philpott, this Henry Clay Note is "rarer than the Seward coin note, the Everett 1878 Silver certificate, the 50 Dollar National Bank Note of 1882 Series with denomination on reverse, and so on". Mr. Philpott further states, "I saw two badly battered up ones (mended with tape), in Philadelphia in August last, which sold for $1250 and $1500 respectively. A prominent dealer made the statement that only 12 notes in all were in existence of this rarity. This note is about new condition and should now bring what Mr. Philpott's new note sold for last year (2,500.00)**

## 100 DOLLAR NOTES

2386 **Fr. #168. 1869. Considered by some authorities as nearly as rare, if not actually as rare as the 50 Dollar Note of the same series. The Wade Collection did not have one. This is about New Note has some transparent coating which I am told is a preservative to keep this lovely note in this condition indefinitely. Should bring as much as the Philpott Note did uncirculated last year (1,750.00)**

2387 **Fr. #179. 1880. Fine. Rare (250.00)**

## COMPOUND INTEREST TREASURY NOTES

2388 **Fr. #190. 1864. Redeemable three years after issue at 11.94. A far better note than what few I have seen. I can see only two faint creases. Small brownish "Age Marks" at corners, otherwise about New condition. Very rare as Friedberg does not list it in better than Fine. At Philadelphia Last August, a note not as nice as this was priced 1200.00. Since this nice note does not have any Pinholes or tears which usually occur on this rarity, I believe it to be worth at least (1500.00)**

2389 **Fr. #191. 1864. Redeemable three years after issue at 23.88. Very Fine. Far better than most of the few notes I have seen. An extremely rare note (1650.00)**

## INTEREST BEARING 50 DOLLAR NOTE

2390 **Fr. #212. 1864. Interest payable semi-annually. Type with Eagle facing defiantly backward. Very Fine appearing with the usual small repairs. 1/16th inch missing from corner. Not priced Friedberg but "Extremely Rare" in place of price. Only 4 or 5 notes are said to have survived. Several years ago one sold for (3500.00)**

## REFUNDING CERTIFICATE

2391 **Fr. #214. 1879. Interest of 4% with the redemption value $21.30. A superb nearly new note with nice margins and color. Highly desirable Plate 1. One in about the same condition in Philadelphia last August was priced 1000.00. This more desirable note should be worth at least (1250.00)**

### 50 DOLLAR SEWARD NOTE

### EXCESSIVELY RARE

2440 **Fr. #376. 1891. Superb new note with low number B2*. Government reports show only 25 of these notes are still outstanding. How many of these notes have been destroyed and how many are actually still in existence, no one knows. As pointed out by Mr. Bebee in his price list of the Wade collection, this note is 25 times as rare as the Panama-Pacific Exposition sets which today are bringing $4000, and has at least as many potential buyers whenever one of these items rarely appear on the market. The Wade note which was not new two years ago sold for 3,750.00. Now with the great increase in demand plus the fact that this is a greatly superior note, I believe this great rarity is worth (5,500.00)**
